

HIPAA Compliance Management Program (HCMP)

Are you interested in reducing cost and improving your compliance posture?

Does shifting the burden of HIPAA-HITECH & IT compliance from Practice Management/Staff interest you?

Should an audit occur, do you know where proof of compliance documents & files are, or if they exist?

InfoSight's HCMP Includes:

- Meaningful Use Core Requirement 15 Security Risk Analysis Service
- Gap Analysis & Risk Assessment
- Policy & Procedure Creation & Maintenance
- Annual Privacy & Security Training
- Audit Response Service
- Contingency & Disaster Recovery Plan Development, Education & Testing

InfoSight's HIPAA Compliance Management Program (HCMP) is designed to assist healthcare providers, payers, and clearinghouse organizations by reducing the cost of achieving and maintain compliance through resource augmentation and tools that reduce the overall "compliance and resource burden."

When you choose the HCMP program, InfoSight creates a single point of contact for your compliance needs. Our discovery and data collection process allows us to access your data for multiple compliance requirements, reducing or eliminating costs to your organization while reducing long term expenses up to 40%!

Is HCMP right for you?

In determining the best approach for your organization, several factors should be considered, including:

- Assessing your current situation; are you getting what you're paying for?
- Determining if your current service is providing you needed "proof" documentation in event of an audit?
- Evaluating your Risk Management Program; place emphasis on cost, security and compliance.
- Gaining an understanding of available tools and processes: achieve a maximum benefit.

The primary goal of InfoSight's HCMP program is to ensure a high level of compliance through the use of a variety of enforcement tools, training and mentoring all backed by professional services.

Combined, this results in high rates of compliance, time and cost savings, as well as a greatly improved risk management program.

You need a strategic partner to help you regain the advantage!

Partner with InfoSight to:

- Augment/complement your existing staff with our compliance experts. We do the heavy lifting and save you time.
- Identify and document what assets, processes, policies and procedures are in place and work to ensure they map to internal and external compliance requirements.
- Determine your compliance posture prior to the arrival of auditors
- Achieve the ratings you need to reduce the cost of compliance
- Keep you in compliance with both existing and new regulations coming into effect.
- Train and mentor your Privacy & Security Officials as well as the entire staff.
- Provide organizational-wide HIPAA Privacy & Security training for your Business Associates.

Don't face compliance issues alone. To learn how InfoSight can help you ensure continuous compliance with internal policy and regulatory mandates, call or visit us today. **877-557-9703 / www.InfoSightInc.com**

Virtual ISO & Mentoring

InfoSight brings a unique set of skills and experience to ensure that our customers receive the most comprehensive, cost-effective security services available. We can assume as many, or as few, of the functions of the Information Security Officer, as you require. All Senior Security Professionals that participate in the program hold multiple advanced security certifications, such as: (CISSP) (CPP) (CISM) (CISA) (CFE) (CFI)

Employee HIPAA Privacy & Security Awareness Training

InfoSight can give your employees a detailed understanding of HIPAA Privacy & Security Awareness. In order to provide fresh and dynamic security awareness content to your employees, InfoSight offers a website specifically dedicated to this purpose as part of our Customer Security Awareness Program. Besides offering a Customer Security Awareness Program, InfoSight also offers formal security awareness training courses that are suitable for all audiences. InfoSight's courses meet all requirements for HIPAA training established by the federal HIPAA Privacy and HIPAA Security regulations.
