Convenient Encrypted Communications

InfoSight can help educate your retail and commercial customers regarding online fraud and ensure fulfillment of compliance obligations.

SECURE CONTACT-US™

Do your customers send you confidential financial or personal information by email?

Are you concerned about email privacy and security for yourself & your customers?

Would you like to provide a seamless and effortless way for your customers to send encrypted information to you?

Secure Contact-Us™ enables your customers to send sensitive information without needing you to initiate a secure email exchange and without the risks and costs associated with a data breach. Allow clients to upload confidential and sensitive files directly through your website, totally encrypted!

Simple and Convient to Use

Secure Contact-Us™ offers the ability for anyone outside your network to initiate an encrypted email message to your business. There is no cost to customers and partners, and no software installation or training is needed.

How Secure Contact-Us™ Works

Secure Contact-Us™ provides your customers and partners with the ability to communicate with you securely and feel confident that their sensitive information is protected in the transmission. No longer are your customers and partners inconvenienced waiting for your employees to begin a secure email exchange.

Customers can securely email and upload:
- Financial Information
- Tax Returns
- Credit & Loan Applications
- Payroll, and much more.

Features:

- Secure, bi-directional email
- Easy access from company Website
- Customized drop down list of company email addresses
- User authentication for inbound email messages
- Functions across all Internet-enabled devices

Benefits:

- Recieve convenient, secure emails from your customers.
- Direct-to-inbox delivery for your staff
- No user training or software to install or support
- Improved workflow for your business
- Added confidence for existing customers and partners
- Competitive advantage for prospective customers and partners
- Simple to use. No "admin."

SEND US AN ENCRYPTED EMAIL

Easy Access

With Secure Contact-Us™ customers and partners can initiate a new encrypted email through two convenient access points.
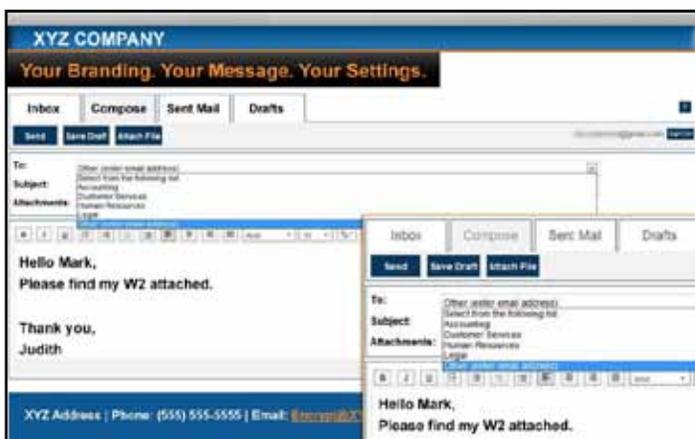

①

②

The first option leverages your outgoing messages, adding a Secure Contact- Us™ link to employee email signatures or in your corporate disclaimer. Your recipients can send a new, encrypted email by simply clicking "Send us an Encrypted Email."

The second option adds a secure message feature to your Web site. The Secure Message addition can be customized and included on your homepage, "Contact Us" page and any other Web pages that are highly visible to customers and partners.

Beyond The Desktop

Understanding that convenient, secure email is essential across all platforms, InfoSight's Secure Contact-Us™ enables your customers and partners to initiate encrypted email to your company anytime, anywhere and on any Internet-enabled mobile device. Secure Contact-Us™ navigates smoothly between desktop and mobile devices and functions across all major mobile platforms, including Android™, BlackBerry®, iPhone® and iPad®.
