Your Phone System Is Stuck in the Past.

Microsoft Teams Essentials with Voice

Your Phone System Is Legacy Debt. Legacy PBX hardware demands expensive maintenance and can't adapt to remote or hybrid work without a forklift upgrade — and standalone voice systems rarely include affordable video, forcing rip-and-replace migrations just to modernize.

InfoSight's Microsoft Teams Essentials with Voice services unifies chat, HD voice, and video conferencing in one cloud phone system — so your workforce stays connected and ready to scale.

Where Legacy Phone Systems Fail

- **Expensive Legacy Hardware:** Legacy PBX systems demand costly maintenance and hardware upgrades just to keep the lights on.
- **No Remote-Ready Flexibility:** Proprietary systems can't adapt to remote or hybrid work without a forklift upgrade
- **Limited Video Conferencing:** Standalone voice systems rarely include affordable video conferencing built in.
- **Vendor Lock-In:** Migrating platforms often means expensive rip-and-replace investments.

Turn Legacy Into Leverage

- **Affordable Cloud Phone System:** Replace legacy PBX with subscription pricing and predictable monthly costs.
- **Scalable VoIP Service:** Instantly add or remove users, numbers, and features as you grow.
- **Unified Communications Platform:** Chat, voice, video, and meetings in one secure app.
- **Rapid Deployment:** Deploy in days with minimal IT overhead.

OUR UNIFIED COMMUNICATIONS SOLUTION

1. **VoIP & Video**
   Host HD voice and video calls directly from Teams on Windows, macOS, iOS, or Android.
2. **Integrated Collaboration**
   Share files, chat, and co-author documents without switching tools.
3. **Cloud PBX**
   Eliminate on-prem hardware; provision and manage numbers via the Teams admin center.
4. **Contact Center Add-On**
   Seamlessly add a cloud-based call center for high-volume or enterprise environments.
5. **Global PSTN Connectivity**
   Connect users to the public telephone network with local and international calling, so every user can dial out and receive calls from anywhere.

WHY CHOOSE INFOSIGHT

- ✓ **Remote & Hybrid Workforce Ready:** Connect teams anywhere with enterprise-grade reliability.
- ✓ **Rapid, Low-Overhead Deployment:** Live in days, not months, with minimal IT lift.
- ✓ **Built-In Compliance & Security:** Microsoft security controls and global data residency, out of the box.
- ✓ **Right-Sized for Any Organization:** Scalable pricing and features for growing and enterprise teams alike.

ONE APP. EVERYTHING CONNECTED.
Chat, calls, meetings, and files all live in the Teams app your people already use — no extra logins, no extra training, no extra help desk tickets.

TAKE THE NEXT STEP

Transform your legacy phone system into Microsoft Teams Phone — request a consultation to reduce costs, simplify management, and empower your distributed team.
