You Can't Patch a Person

Social Engineering & Physical Security Testing

Attackers Don't Hack Firewalls. They Hack Trust. Deepfakes, spear-phishing, and tailgating tools let attackers sidestep your firewalls entirely — targeting the one link you can't patch: your people. Every unchecked employee, door sensor, and visitor flow is a potential way in.

Where Your Human Perimeter Fails

- **AI-Enhanced Deception:** Deepfake audio and video make spear-phishing nearly impossible for employees to catch.
- **Unchecked Physical Access:** Tailgating, badge cloning, and CCTV blind spots let intruders walk right in.
- **Omnichannel Social Engineering:** Email, SMS, and voice-based scams all target the same untrained instinct to help.
- **Untested Response Workflows:** Without a real drill, nobody knows how staff and security teams actually react to a live incident.

InfoSight's red-team pros simulate phishing, vishing, smishing, and in-person intrusion to expose your human and physical security gaps — then arm you with fixes before real adversaries breach.

Turn Your People Into a Defense

Employee Susceptibility Scores: Ranked by role, team, and location so you know exactly where to focus.

Tailored Training Roadmap: Targets your real-world behavior gaps, not generic awareness content.

Physical Security Gap Analysis: Covers doors, cameras, and visitor management end to end.

Executive-Ready Reports: Aligned to NIST 800-53, ISO 27001, and HIPAA human-control requirements.

OUR ATTACK SIMULATION METHODOLOGY

1 **Recon & Profile**
Harvest open-source and internal intel to craft hyper-realistic lures.

2 **Multi-Vector Assaults**
Deploy email, SMS, voice, webhooks, and on-site breach drills.

3 **Physical Breach Drills**
Test badge cloning, tailgating, CCTV blind spots, and response workflows.

4 **AI-Enhanced Social Tactics**
Deepfake videos and custom domains put your defenses up against today's most convincing attacks.

WHY CHOOSE INFOSIGHT

✓ **Elite Social Engineers:** CISSP, CEH, and OSCP-certified experts running real-world adversary emulation.	✓ **25+ Years in Risk & Compliance:** Finance, healthcare, and critical infrastructure experience built in.
✓ **U.S.-Based Operations:** Strict data-sovereignty and privacy controls on every engagement.	✓ **Integrated IT & OT Expertise:** Holistic coverage from cloud to plant floor.

MITIGATOR®
CYBER RISK AND THREAT INTELLIGENCE PLATFORM

All results are delivered via our Mitigator™ Cyber Risk & Threat Intelligence Platform, with customizable exports for executives, auditors, and regulators.

TAKE THE NEXT STEP

Book a 15-minute scoping call and get a preliminary report that pinpoints your top social-engineering and physical-security gaps. No spam — one expert follow-up, guaranteed.
